

## Your specialised partner for payment solutions

### Smart Ease offers flexible funding to secure smart and energy-efficiency equipment for your organisation.

Smart and energy-efficiency technologies are vital for building a better future – for our environment, communities and for businesses too. Innovative technologies support growth for your organisation through improved efficiency and reduced operating costs.

When it comes to payment solutions for smart and energy-efficiency equipment, Smart Ease delivers competitive rates, fast approval and a dynamic, responsive experience. We provide a full suite of options, giving you flexibility and freedom to choose funding arrangements that suit your business goals.

We collaborate with you and your suppliers to design funding solutions that meet all requirements.

- ▾ **Trusted by clients across all industries to provide competitive and flexible funding.**
- ▾ **Bespoke options for businesses that need a tailored solution, such as for managing cash flow for large and complex projects.**
- ▾ **Choose from a range of payment options like payment plans, Power Purchase Agreements (PPAs) or Services Funding Agreements.**
- ▾ **Draw on our specialist experience in the smart-tech and renewable-energy industries.**
- ▾ **We find the optimum funding solution for unique projects including:**
  - Multiple-installation stages
  - Components from different international suppliers
  - Part-funding from government rebates and grants.

### Equipment we fund

Solar power & storage

Efficient lighting

Heat pumps

Water heating & purification

Communications equipment

AV & multimedia systems

Security & monitoring systems

Building automation

### Industries we work with

- Agriculture
- Manufacturing & industrial
- Health & aged care facilities
- Government & not-for-profit
- Retail & hospitality
- Education
- And more.

### Smart Ease took the time to understand our business requirements for the project and tailored a suitable package.

We were looking to commission a new Samsung video wall to display live exchange data for energy, environmental and commodity product classes. It's one of the largest screens of its kind in Australia and the centrepiece for our new exchange headquarters on Bridge Street, Sydney. As partner in the project, Smart Ease took the time to understand our business requirements for the project and tailored a suitable package.

Brian Price, Executive Chairman

## What you can expect from Smart Ease

### Efficiency

Being a digital-first service provider is all about making life easier for our customers. That's why we developed our payment solutions platform to deliver approval faster and without the fuss.

Our channel partners can get their business customers approved for energy-efficiency or smart-equipment installation in less than four minutes.

### Expertise

Our payment solutions are tech-enabled, but it's our people who make the difference. We take the time to understand your business goals so we can ease the path from funding to installation.

When it comes to tailoring funding solutions for larger projects, you can rely on our expert team to find solutions – and get your project completed sooner.

### Energy

With Smart Ease you'll experience can-do, energetic and solution-oriented service every time.

It's a commitment that we always follow through on. And if your project has unusual requirements, you can count on us to find the best way forward.

**Smart Ease's industry knowledge supported us in progressing with the whole project far more quickly.**

There was significant lead time to source equipment for this major project – a critical deliverable for our sustainability strategy. With the requirement for custom-built components, we needed a solution that would be flexible enough to meet our supplier's payment schedule. Not only did Smart Ease tailor a plan to match the pace of the rollout, their industry knowledge supported us in progressing with the whole project far more quickly. The time-savings enabled us to complete installation before summer, enabling us to cut our seasonal energy costs and meet sustainability targets.

Jeremy Panuccio, Project Manager

**Freedom Foods Group Ltd. Project value \$5-10m.**
